# FOREWORD

WE THE STAFF

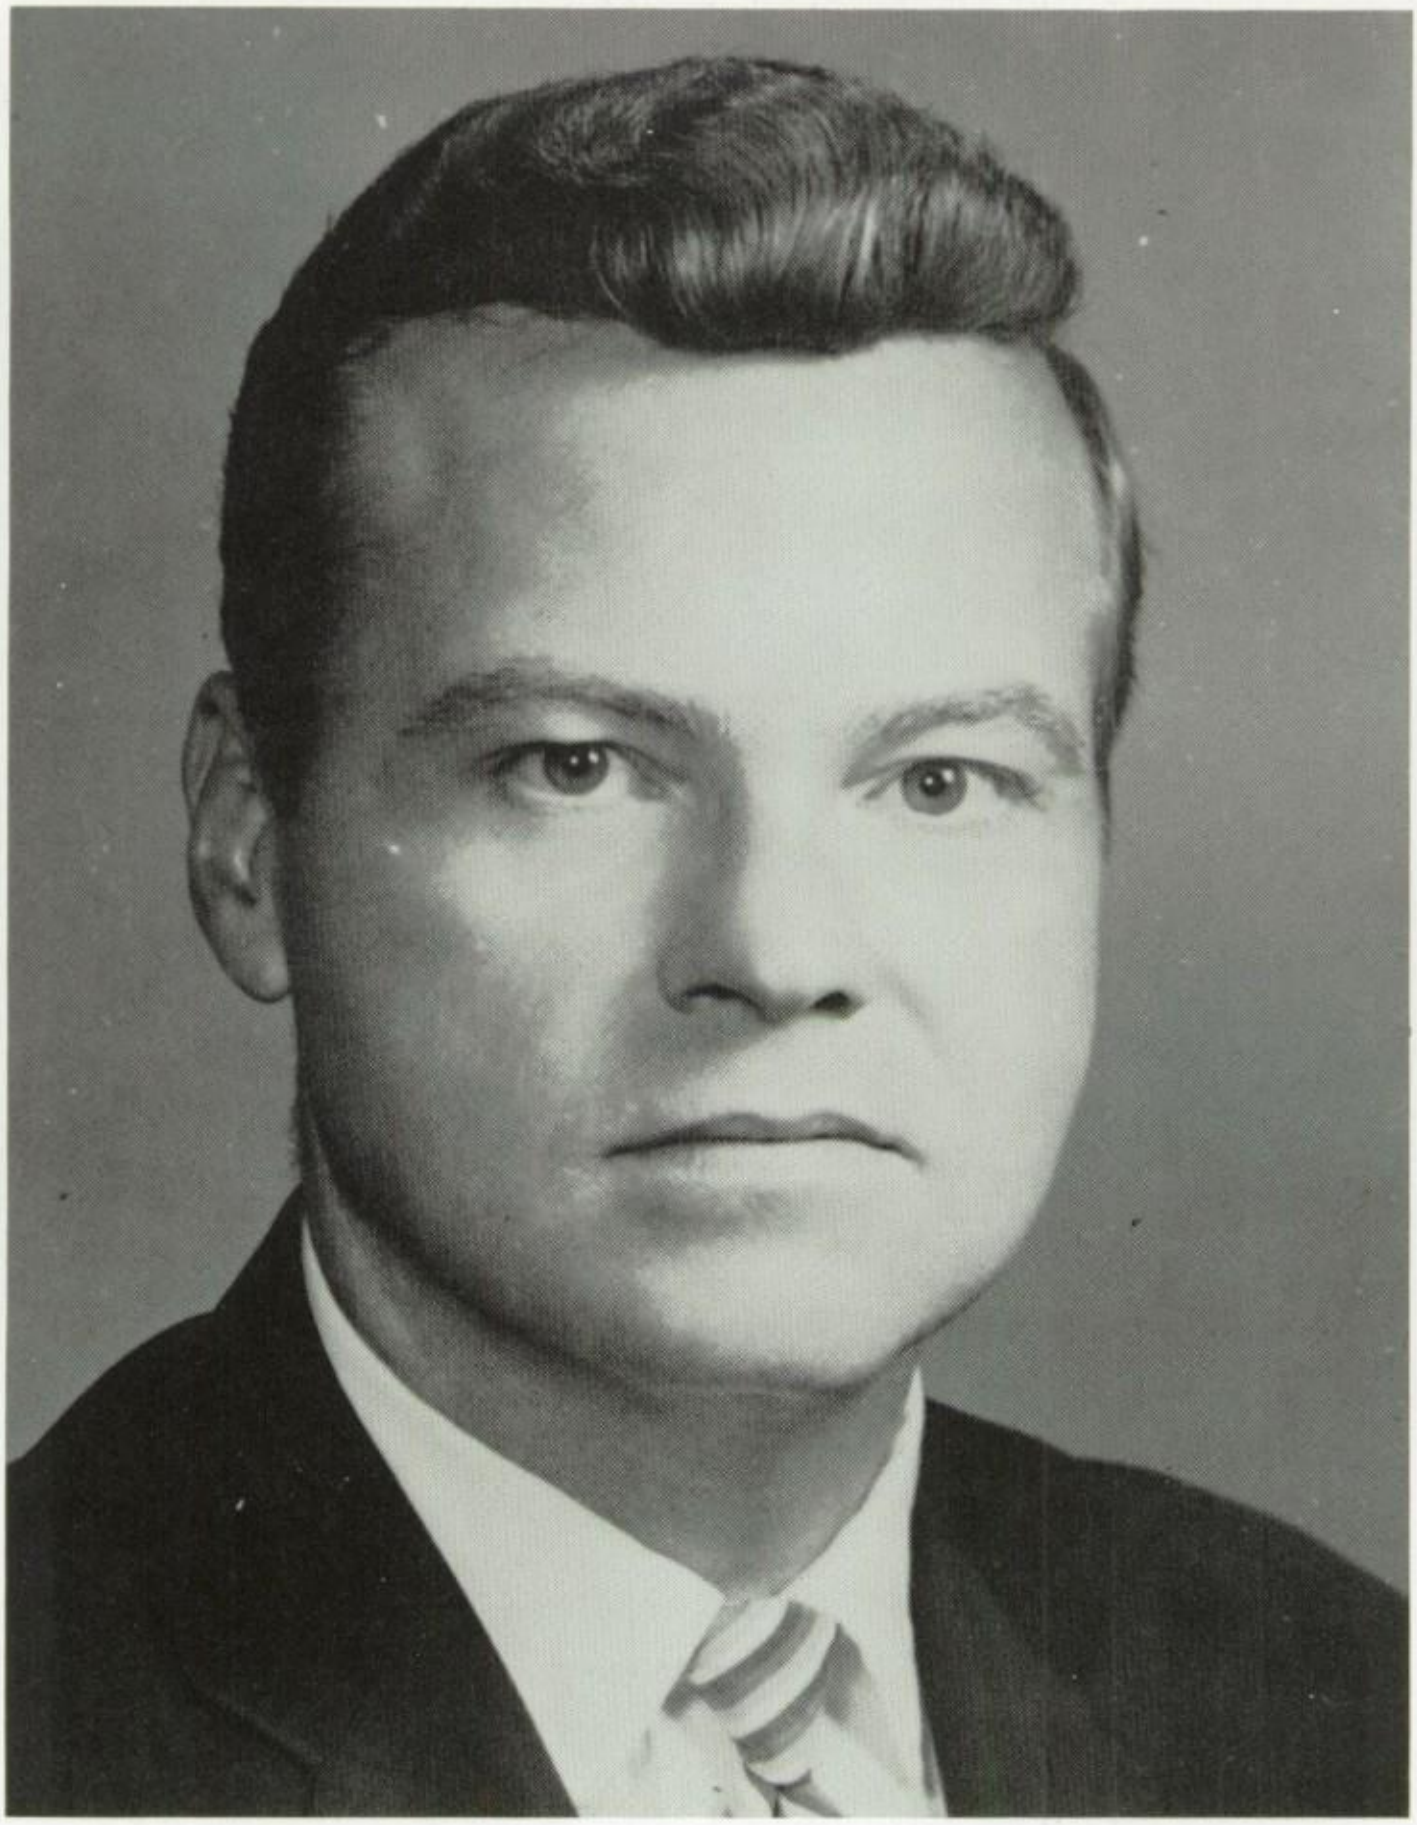
give to you this 1961-62 Black Cat to be criticized and then to find its resting place on a shelf. But, if in the future, you turn these pages and the memory of the most successful years of the school is made more vivid, we shall not have labored in vain.

*Judy Leonard*
EDITOR

# EXPERIENCED BOARD MEMBERS DIRECT OUR SCHOOL

The Board of Education of the Herculaneum Educational System has played a large part in the growth and progress of the Herculaneum schools. For their service, the students and community are grateful. They have always given willingly of their time and talents without receiving any pay, except the gratitude and respect of the students and patrons of the Herculaneum school district and the community as a whole.

# DEDICATION



To a loyal and personal friend of every student this edition of the Black Cat is fully dedicated. To him we offer our tribute of love, respect, and esteem. He will be ever dear to the students of Herculaneum High School.

Perhaps the failure to express our gratitude and appreciation personally to this person of esteem standing in our hearts can be replaced by this dedication of our '61-'62 Black Cat to MR. GENE PHILLIPS.

The Herky Black Cats defeated the Crystal City Hornets 57 to 52 in an exciting basketball game at Herky on Friday, January 5.

Tom Ramsey and Larry Helms led the Black Cats with 18 and 14 points. Hardin was high man for Crystal with 20 points.

Herky got the tip-off and outscored the Hornets throughout the game. Herky led at the half 34 to 26, and then went on to down the Hornets 57 to 52.

Dear Ole Lemon, you idiot!

I hardly believe we have made it but I guess we have, because they are making us practice marching and I guess they wouldn't if we weren't going to graduate — would they? I can understand me making it — but you! Remember how we disgusted each other through the years and showed it and how we still disgust each other but try to cover it up? — We have had a lot of fun this year and I sincerely hope we will always remain the best of friends — especially considering we are related.

I must say, though, Connie, if you had a brain you would be dangerous. Yes you would — very mmmmmmy dangerous. Very!

Best of luck to my very dearest friend, may we always remain so — which does seem extremely impossible, doesn't it?

Tooty
